

SUCCESS CRITERION 2.2.3 · LEVEL AAA

No Timing

“The Internet's
already a race; don't
make it a timed
obstacle course too!”

Who this helps: Cognitive Impairments

SUCCESS CRITERION 2.2.3 · LEVEL AAA

No Timing

Timing is not an essential part of the event or activity presented by the content, except for non-interactive synchronized media and real-time events.

Principle 2: Operable

Guideline 2.2: Enough Time

What each role can do

Product manager

Eliminate time-based actions unless they are absolutely necessary for the functionality or the content.

Designer

Design experiences that do not rely on timed interactions for accessibility.

Developer

Avoid code that requires user input within a specific time frame, unless it's critical for real-time or synchronized media.

Tester

Check that the website or application does not enforce unnecessary time limits on user actions.

Once it is fixed

“You’ve turned the race into a leisurely stroll. How refreshing!”

WCAG Quotes

Every WCAG 2.2 success criterion,
told by the person it helps.

mpaiva.com/wcag-quotes/2-2-3-no-timing

The quotes are written to illustrate the criterion. They are
not testimonials from real people.
